Subject: additional clarifications no. 7 in accordance with Article 63 paragraph 3 of Public Procurement Law ("Official Gazette of the Republic of Serbia" number 124/12 & 14/15) in an open public procurement procedure for the procurement of consulting services "Improving financial management and control in EPS group (internal controls and processes, reorganization, cost center/profit center, budgeting and reporting)" - Definition and implementation of EPS CFO organization model - PP number 85/14/DEFP, for which Invitation to Tender was published on Public Procurement Portal on 14.04.2015.

Five and more days prior to expiry date foreseen for submission of tenders in subject public procurement procedure, interested party has submitted to the Employer via e-mail request for additional information, i.e. clarifications, regarding which the Employer, i.e. Public Procurement Committee, in accordance with provision of Article 54 paragraph 12 item 1) of the Law shall provide the following information i.e. clarifications within three days from the day of the receipt of the request:

Question 1:

There is written in tender documentation on page 5, chapter 3.2 that, "The Tenderer shall number each tender page on both sides (including blank pages, if any) by hand, computer or a typewriter".

For tender pages numbering we plan to use automatic numbering machine (6 numbering wheels, constructed of all-metal components, typing via ink felt), working on the similar technical principle as a typewriter.

So we would like to know if our tender will not be rejected as unacceptable, in case of using technical equipment for tender pages numbering as mentioned above.

Answer 1:

The above mentioned method for tender pages numbering, with machine that is working on the similar technical principle as a typewriter, is acceptable for the Employer.

These additional clarifications are submitted by email to the applicant and are published on Public Procurement Portal and web site of the Employer.
