

Miroslav Tomašević

Born in 1966 and holds a degree in electrical engineering. He graduated from the University of Belgrade School of Electrical Engineering.

Since 2009, he has been a member of the Team for harmonization with European Union standards in the field of mining within the electrical engineering area, and he also passed professional exams for the degree of electrical engineer - in mining department and energy department. Miroslav Tomašević's expertise is confirmed by the licenses for construction and design, and he also gained significant work experience in Bosnia and Herzegovina, Northern Macedonia and Republika Srpska.

He started his working career in 1993 as a teacher of electrical engineering at the Secondary Technical School "Kolubara" in Lazarevac, after which he started working at the company "Minel ELPO", where he was an equipment designer. From 1995 to 2006, Miroslav Tomašević worked in the Kolubara coal basin as a shift electrical engineer, ECS system electrical engineer and electrical maintenance manager. From 2006 to 2008 he was the Technical Director of Fish Corp 2000, from 2008 to 2010 he was the Technical Director of ATB Sever and was responsible for energy engineering. From 2010 to 2013, Tomašević continued his career in the company named "Sky Topeco", where he worked as the executive director responsible for affairs in the mining and thermal sector.

From 2013 to 2015, Miroslav Tomašević was the Director of System Improvement at Nikola Tesla Thermal Power Plants, and during 2015 and 2016 he was the head of the Transformation Office in PE EPS. From 2016 to May 2021, Tomašević was the director of the Sector for the new facilities and funds realization in TPPs, HPPs and RES. From May to December 2021, he was the director of energy generation in the TPP-OCMs Kostolac branch, and from December 2021 to March 2022, he was the Executive Director for Electricity Generation Technical Affairs in PE EPS. Under the decision of the Government of Serbia as of March 3rd, 2022, he was appointed acting director of the Public Enterprise Electric Power Industry of Serbia.

He is married and speaks English.
