

KATARINA ANDREJEVIĆ

Executive Director for Information Technology and Digitalisation Joint Stock Company Elektroprivreda Srbije

Katarina Andrejević earned her master's degree from the Faculty of Electrical Engineering at the University of Belgrade.

She began her professional career as a designer working on the development of mobile telephony systems. In 2012, as one of the successful candidates in the '110 Best' competition, she joined Elektroprivreda Srbije at the position of telecommunications engineer, further working on the administration, monitoring and maintenance of communication equipment and network services.

She has led various teams in managing the Infrastructure Division, specifically the ICT Infrastructure Sector, for maintaining the stable operation of the Data Centre and network infrastructure essential for various software solutions supporting electricity and coal trade and production, as well as ERP, Billing, and DMS systems.

She actively participated in numerous professional trainings and processes of implementation, improvement and consolidation of IT operations in EPS JSC, as well as in the transformation process.

She is married and the mother of two.

She is fluent in English.
